

D06+ 4G LIVE STREAM RAPID DEPLOYMENT CCTV

The versatile DA-06 Rapid Deployment HD 4G / Wi-Fi Pan Tilt & Zoom camera is a high-definition IP camera powered by a high performance lithium battery pack. Operational in the harshest environments the DA-06 is waterproof, shock-proof, with characteristics particular to the demands of a temporary or rapid installation such as a magnetic base for vehicle application or tripod mounted.

- Full PTZ
- Rapid Deploy
- Magnetic Base
- 4G CCTV
- Wi-Fi CCTV
- Satellite CCTV
- RSTP/RTMP Feeds

DIGITAL EVIDENCE VIDEO MANAGEMENT PLATFORM

The Video Management Platform collects and stores the evidence collected on a Linux server housed in our Cyber Secure data centre based in the UK which means users can retrieve data and access at a later stage using a keyword search

- Centralised Data Management
- Logging system for evidence retrieval
- GEO fencing
- Automatic upload to VMP centralised storage
- GPS Location Data

D06+ - Specification

Processor - 8-core (64-bit)
 Operating System - Android 8.1
 Dual Band WiFi - IEEE 802.11b/g/n/a/ac (2.4GHz/5GHz)
 Battery Capacity - 12.6V / 8000mAh polymer battery
 Battery Life - ≥10h (continuous video shooting with 1440P, 1080P@30FPS, day time, normal operation)
 Dimensions (H*W*D) - ≤185*185*220 mm
 Weight (with battery) ≤1800g
 Ingress Protection - IP67
 Field of View - Horizontal 65.1° Wide Angle 2.3°
 Focal Length - 4.6 - 94mm, Zoom 20x Optical Zoom
 Sensor - SONY 1/2.3" IXM117 chip. 12m pixels
 Night Vision - ≤1800 metres
 Positioning - GPS/ GLONASS / AGPS
 Charger - 12.6V, 4A

MultiNet LTE Managed Data Service

- Un-steered - greater flexibility
- Roaming Service - single sim only
- Pooled Data allowance - shared across devices
- Un-steered
- Client manageable central portal
